

Title Index to Volume 4

The 2008 Edward E. Mason Founders Lecture: interdisciplinary teams in the development of “best practice” obesity surgery, 679
\$459/pound, 569

A

Accuracy of upper gastrointestinal swallow study in identifying strictures after laparoscopic gastric bypass surgery, 96
Adherence to outpatient program postoperative appointments after bariatric surgery, 515
Alcohol abuse and dependence before and after bariatric surgery: a review of the literature and report of a new data set, 647
Allied Health Session, 363
American Association of Clinical Endocrinologists, The Obesity Society, and American Society for Metabolic & Bariatric Surgery Medical Guidelines for Clinical Practice for the Perioperative Nutritional, Metabolic, and Nonsurgical Support of the Bariatric Surgery Patient, S109
Anastomotic leaks after bariatric surgery: it is the host response that matters, 152
Announcements, 570
Antiperistaltic (retrograde) intussusception after laparoscopic Roux-en-Y gastric bypass procedure, 567
ASMBS Allied Health Nutritional Guidelines for the Surgical Weight Loss Patient, S73
Association between support group attendance and weight loss after Roux-en-Y gastric bypass, 100
Author Index, 376

B

Bariatric surgery . . . a science?, 172
Bariatric surgery reduces cancer risk in morbidly obese patients, 691
Behavioral Health Session, 372

C

Comment on: A new modality to evaluate the gastric remnant after Roux-en-Y gastric bypass, 49
Comment on: Anastomotic leaks after bariatric surgery: it is the host response that matters, 157
Comment on: Bariatric surgery reduces cancer risk in morbidly obese patients, 696
Comment on: Diagnostic laparoscopy for chronic abdominal pain after gastric bypass, 398
Comment on: Effect of Roux-en-Y gastric bypass in obese

patients with Barrett’s esophagus: attempts to eliminate duodenogastric reflux, 4
Comment on: Endoscopic sclerotherapy for dilated gastrojejunostomy of failed gastric bypass, 542
Comment on: Health and health-related quality of life: differences between men and women who seek gastric bypass surgery, 658
Comment on: Laparoscopic bariatric surgery improves candidacy in morbidly obese patients awaiting transplantation, 164
Comment on: Laparoscopic sleeve gastrectomy with endoscopic guidance in morbid obesity, 580
Comment on: Long-long-limb Roux-en-Y gastric bypass is more efficacious in treatment of type 2 diabetes and lipid disorders in super-obese patients, 526
Comment on: Maintenance of weight loss in patients with body mass index >60 kg/m²: importance of length of small bowel bypassed, 406
Comment on: Management of anastomotic leaks after Roux-en-Y bypass using self-expanding polyester stents, 599
Comment on: Management of slipped adjustable gastric bands, 538
Comment on: Management of ventral hernias during laparoscopic gastric bypass, 757
Comment on: Preoperative upper gastrointestinal endoscopy in obese patients undergoing bariatric surgery: is it necessary?, 150
Comment on: Pulmonary function in the morbidly obese, 639
Comment on: Use of critical care resources after laparoscopic gastric bypass: effect on respiratory complications, 702
Comparative analysis of short-term outcomes after bariatric surgery between two disparate populations, 110
Comparing outcomes of hand-assisted versus total laparoscopic gastric bypass, 91
Comparison of permanent and nonpermanent staple line buttressing materials for linear gastric staple lines during laparoscopic Roux-en-Y gastric bypass, 729
Complications after laparoscopic sleeve gastrectomy, 33
Compression anastomosis for Roux-en-Y gastric bypass: observations in a large animal model, 115
Contribution of obesity to pancreatic carcinogenesis, 186
Conversion of failed laparoscopic gastric banding to gastric bypass as safe and effective as primary gastric bypass in morbidly obese patients, 735
Cost analysis of laparoscopic gastric bypass practice using current Medicare reimbursement and practice costs, 131

Cost-effectiveness analysis of laparoscopic gastric bypass, adjustable gastric banding, and nonoperative weight loss interventions, 26

D

Design and demography of the United States Swedish Adjustable Gastric Band trial: a 3-year prospective study, S63
 Diagnostic laparoscopy for chronic abdominal pain after gastric bypass, 394
 Disclosure Information for ASMBS 2008 Abstracts, 380
 Does diabetes affect weight loss after gastric bypass?, 441
 Don't talk to me about exercise, 690

E

Effect of Center of Excellence requirement by Centers for Medicare and Medicaid Services on practice trends, 437
 Effect of preoperative weight loss on laparoscopic gastric bypass outcomes, 704
 Effect of Roux-en-Y gastric bypass in obese patients with Barrett's esophagus: attempts to eliminate duodenogastric reflux, 1
 Efficacy of a low-pressure laparoscopic adjustable gastric band for morbid obesity: patients at long term in a multidisciplinary center, S31
 Emergency room visits after laparoscopic Roux-en-Y gastric bypass for morbid obesity, 104
 Endoscopic sclerotherapy for dilated gastrojejunostomy of failed gastric bypass, 539
 Enoxaparin thromboprophylaxis in gastric bypass patients: extended duration, dose stratification, and antifactor Xa activity, 625
 Erratum, 689
 Evaluating preoperative weight loss, binge eating disorder, and sexual abuse history on Roux-en-Y gastric bypass outcome, 137
 Evaluation of Bariatric Centers of Excellence Web sites for functionality and efficacy, 571
 Evolution of gastric band implantation and port fixation techniques, S22

F

First human experience with endoscopically delivered and retrieved duodenal-jejunal bypass sleeve, 55
 Frequency distribution of weight loss percentage after gastric bypass and adjustable gastric banding, 486
 From the Editor-in-Chief, 473

G

Gastric banding for the treatment of type 2 diabetes mellitus in morbidly obese, 423
 Gastrobronchial fistula as a complication of laparoscopic adjustable gastric banding, 671
 Gout and the postoperative bariatric surgery patient, 14
 Gouty attacks occur frequently in postoperative gastric bypass patients, 11

H

Health and health-related quality of life: differences between men and women who seek gastric bypass surgery, 651

Human hybrid NOTES transvaginal sleeve gastrectomy: initial experience, 660

I

"If you don't mind. . .", 76
 Improvement in comorbid illness after placement of the Swedish Adjustable Gastric Band, S39
 Incidence and management of enteric leaks after gastric bypass for morbid obesity during a 10-year period, 389
 Incidence of deep vein thrombosis in morbidly obese patients undergoing laparoscopic Roux-en-Y gastric bypass, 126
 Incidental pathologic findings in open resectional gastric bypass specimens with routine cholecystectomy and appendectomy, 608
 Informed consent issues in the conduct of bariatric surgery, 60
 Introduction and current status of bariatric procedures, S1
 Intussusception after laparoscopic Roux-en-Y gastric bypass, 205
 Intussusception after Roux-en-Y gastric bypass for morbid obesity, 664
 Iron deficiency and anemia after bariatric surgery, 719
 Italian multicenter experience of Roux-en-Y gastric bypass on vertical banded gastroplasty: four-year results of effective and safe innovative procedure enabling traditional endoscopic and radiographic study of bypassed stomach and biliary tract, 16

L

Lack of correlation between variation in small-volume gastric pouch size and weight loss after laparoscopic Roux-en-Y gastric bypass, 399
 Laparoscopic adjustable gastric banding in an ambulatory surgery center, S56
 Laparoscopic bariatric surgery improves candidacy in morbidly obese patients awaiting transplantation, 159
 Laparoscopic gastric bypass after cardiac transplantation, 668
 Laparoscopic hiatal hernia repair and repeat sleeve gastrectomy for gastroesophageal reflux disease after duodenal switch, 73
 Laparoscopic placement of an adjustable gastric band in a super-super obese patient with situs inversus, 768
 Laparoscopic restoration of gastrointestinal continuity after duodenal switch, 451
 Laparoscopic sleeve gastrectomy: does bougie size affect mean percentage of excess weight loss? Short-term outcomes, 687
 Laparoscopic sleeve gastrectomy: does bougie size affect mean EWL? Short-term outcomes, 528
 Laparoscopic sleeve gastrectomy with endoscopic guidance in morbid obesity, 575
 Laparoscopic sleeve gastrectomy with NOTES visualization—a step toward NOTES procedures, 773
 Laparoscopic transgastric removal of eroded adjustable band: a novel approach, 194
 Limitations of a standardized weight-based nomogram for heparin dosing in patients with morbid obesity, 748
 Long-long limb Roux-en-Y gastric bypass is more efficacious in treatment of type 2 diabetes and lipid disorders in super-obese patients, 521

Low preoperative vitamin levels in morbidly obese patients: a role of systemic inflammation?, 779

M

Maintenance of weight loss in patients with body mass index >60 kg/m²: importance of length of small bowel bypassed, 404

Management of anastomotic leaks after Roux-en-Y bypass using self-expanding polyester stents, 594

Management of choledocholithiasis after laparoscopic Roux-en-Y gastric bypass, 674

Management of slipped adjustable gastric bands, 534

Management of ventral hernias during laparoscopic gastric bypass, 754

Maximal weight loss after banded and unbanded laparoscopic Roux-en-Y gastric bypass: a randomized controlled trial, 507

Medication use after bariatric surgery in a managed care cohort, 601

Meeting Program, 213

N

Need for parenteral iron therapy after bariatric surgery, 715

A new modality to evaluate the gastric remnant after Roux-en-Y gastric bypass, 46

Night blindness after duodenal switch, 685

O

OR Schedule, 472

Outcome of hand-assisted laparoscopic gastric bypass in super obese patients, 618

P

Pancreatic cancer after previous bariatric surgery, 554

Pancreaticoduodenectomy for pancreatic cancer after laparoscopic Roux-en-Y gastric bypass, 552

Physical activity levels of patients undergoing bariatric surgery in the Longitudinal Assessment of Bariatric Surgery study, 721

Placement of a laparoscopic adjustable gastric band after failed sleeve gastrectomy, 556

Plenary Session, 289

Poster Session, 312

Postgastric bypass hyperinsulinemic hypoglycemia syndrome: characterization and response to a modified diet, 492

Postoperative CPAP and BiPAP use can be safely omitted after laparoscopic Roux-en-Y gastric bypass, 512

Predictors of nonalcoholic steatohepatitis in patients undergoing bariatric surgery: when is liver biopsy indicated?, 612

Predictors of outcome in treatment of morbid obesity by laparoscopic adjustable gastric banding: results of a prospective study of 380 patients, 500

Pregnancy outcomes after bariatric surgery: maternal, fetal, and infant implications, 464

Pregnancy outcomes after laparoscopic Roux-en-Y gastric bypass, 39

Preoperative eating behavior, postoperative dietary adherence, and weight loss after gastric bypass surgery, 640

Preoperative upper gastrointestinal endoscopy in obese patients undergoing bariatric surgery: is it necessary?, 144

Preoperative weight gain does not predict failure of weight loss or co-morbidity resolution of laparoscopic Roux-en-Y gastric bypass for morbid obesity, 445

Preoperative weight loss is not a predictor of postoperative weight loss after laparoscopic Roux-en-Y gastric bypass, 481

Prevalence of *Helicobacter pylori* infection and value of preoperative testing and treatment in patients undergoing laparoscopic Roux-en-Y gastric bypass, 383

Profiling surgical staplers: effect of staple height, buttress, and overlap on staple line failure, 416

Pulmonary function in the morbidly obese, 632

R

Recurrent pancreatitis as only presenting symptom of intermittent small bowel obstruction after biliopancreatic diversion with duodenal switch, 202

Reinventing the bariatric wheel: what we know, thought we knew and hope to learn, 563

Relationship of body mass index with demographic and clinical characteristics in the Longitudinal Assessment of Bariatric Surgery (LABS), 474

Relationship of psychiatric disorders to 6-month outcomes after gastric bypass, 544

Reoperation after laparoscopic adjustable gastric banding: analysis of a cohort of 500 patients with long-term follow-up, 430

Response, 210

Retrograde (reverse) jejunal intussusception might not be such a rare problem: a single group's experience of 23 cases, 77

Retrospective analysis of abdominal pain in postoperative laparoscopic Roux-en-Y gastric bypass patients: is a simple algorithm the answer?, 587

Review of meta-analytic comparisons of bariatric surgery with a focus on laparoscopic adjustable gastric banding, S47

Revising the Boston Interview: incorporating new knowledge and experience, 455

Revision of jejunoileal bypass to Roux-en-Y gastric bypass: technical considerations and outcomes from 2 cases, 198

Revisional bariatric surgery for failed restrictive procedures, 581

Revisional surgery after failed laparoscopic adjustable gastric banding, 740

Routine preoperative endoscopy: necessity or excess?, 713

S

Safety and efficacy of intravascular ultrasound-guided inferior vena cava filter in super obese bariatric patients, 50

Screening endoscopy before bariatric surgery: a series of 448 patients, 709

Selective approach to use of upper gastroesophageal imaging study after laparoscopic Roux-en-Y gastric bypass, 122

Short-term outcomes for super-super obese (BMI ≥ 60 kg/m²) patients undergoing weight loss surgery at a high-volume bariatric surgery center: laparoscopic adjustable gastric banding, laparoscopic gastric bypass, and open tubular gastric bypass, 408

Simultaneous laparoscopic type III paraesophageal hernia repair

with porcine small intestine submucosa and Roux-en-Y gastric bypass, 764

Sleeve gastrectomy with wrapping using polytetrafluoroethylene to prevent gastric enlargement in a porcine model, 84

Small bowel obstruction due to antegrade and retrograde intussusception after gastric bypass: three case reports in two patients, literature review, and recommendations for diagnosis and treatment, 69

Student Session, 368

Studies of Swedish adjustable gastric band and Lap-Band: systematic review and meta-analysis, 174

T

Techniques of laparoscopic gastric bypass: on-line survey of American Society for Bariatric Surgery practicing surgeons, 166

The current science of gastric banding: an overview of pressure–volume theory in band adjustments, S14

The history and role of gastric banding, S7

To the Editor, 210

Transgastric endoscopic rendezvous technique for removal of eroded Molina gastric band, 559

Treatment of chronic obstruction as late complication of adjustable gastric band, 770

U

Unrealistic weight loss expectations in candidates for bariatric surgery, 6

Use of critical care resources after laparoscopic gastric bypass: effect on respiratory complications, 698

Use of medical marijuana for treatment of severe intractable nausea after laparoscopic Roux-en-Y gastric bypass surgery, 550

Use of Roux limb as remedial surgery for sleeve gastrectomy fistulas, 759

V

Video Session, 358

Virtual endoscopy of excluded stomach and duodenum after laparoscopic Roux-en-Y gastric bypass, 777

W

“Which one is the obesity center?”, 212
