

Title Index to Volume 5

A

- Achalasia and laparoscopic gastric bypass, 132
Adjustable gastric band placed around gastric bypass pouch as revision operation for failed gastric bypass, 38
American Society for Metabolic and Bariatric Surgery Position Statement on emerging endosurgical interventions for treatment of obesity, 297
Ascorbic acid deficiency in bariatric surgical population, 81
ASMBS guideline on the prevention and detection of gastrointestinal leak after gastric bypass including the role of imaging and surgical exploration, 293
Asymptomatic gastric remnant leak after laparoscopic Roux-en-Y gastric bypass, 630

B

- Bariatric surgery and hypertension, 615
Bariatric surgery and progression of chronic kidney disease, 662
Bariatric surgery for obesity and hidden Cushing syndrome, 121
Bariatric surgery in Medicare patients: greater risks but substantial benefits, 299
Bariatric surgery literature in nonbariatric surgery journals: January 2007 to June, 2008, 486
Bariatric surgery literature in nonbariatric surgery journals: July 2008 to December 2008, 621
Bile reflux after Roux-en-Y gastric bypass: an unrecognized cause of postoperative pain, 27
Brief, four-session group CBT reduces binge eating behaviors among bariatric surgery candidates, 257

C

- Cardiac remodeling after substantial weight loss: a prospective cardiac magnetic resonance study after bariatric surgery, 648
Cardiovascular complications of obesity surgery in patients with increased preoperative cardiac risk, 653
Clinical and radiologic findings of massive gastric prolapse after laparoscopic adjustable gastric banding, 381
Comment on: Bile reflux after Roux-en-Y gastric bypass: an unrecognized cause of postoperative pain (Swartz DE, et al. 2009;5:27–30.), 291
Comment on: Brief, four session group CBT reduces binge eating behaviors among bariatric surgery candidates (Ashton K, et al. 2009;5:257–62), 407
Comment on: Correlations between intra-abdominal pressure and obesity-related co-morbidities, 528

- Comment on: Effect of laparoscopic Roux-en-Y gastric bypass surgery on hemoglobin A1c levels in diabetic patients: a matched-cohort analysis (Mumme DE, et al. 2009;5:4–10.), 289
Comment on: Five-year outcome with gastric bypass: Roux limb length makes a difference, 247
Comment on: Patterns of readmission and reoperation within 90 days after Roux-en-Y gastric bypass, 423
Comment on: Physical function improvements after laparoscopic Roux-en-Y gastric bypass surgery, 537
Comment on: Rationale for reversal of failed bariatric operations, 676
Comment on: Selection of electrical algorithms to treat obesity with intermittent vagal block using an implantable medical device, 229
Comment on: When is the best time to deliver behavioral intervention to bariatric surgery patients: before or after surgery?, 102
Comparison of weight loss and body composition changes with four surgical procedures, 582
Continuous positive airway pressure in immediate postoperative period after laparoscopic Roux-en-Y gastric bypass: is it safe?, 544
Correlations between intra-abdominal pressure and obesity-related co-morbidities, 524
Cushing syndrome and bariatric surgery: why, when, and how to evaluate preoperatively, 119
Cushing's syndrome might be underappreciated in patients seeking bariatric surgery: a plea for screening, 116

D

- Depression is associated with increased severity of co-morbidities in bariatric surgical candidates, 559
Detailed description of early response of metabolic syndrome after laparoscopic Roux-en-Y gastric bypass, 346
Diagnosis and treatment of megaesophagus after adjustable gastric banding for morbid obesity, 156
Dieulafoy lesion after Roux-en-Y gastric bypass, 135
Disappointing mid-term results after laparoscopic gastric banding in young patients, 218
Does liver appearance predict histopathologic findings: prospective analysis of routine liver biopsies during bariatric surgery, 323
Does weight loss immediately before bariatric surgery improve outcomes: a systematic review, 713

Duodenal switch improved standard biliopancreatic diversion: a retrospective study, 43

E

- Early jejunojejunostomy obstruction after laparoscopic gastric bypass: case series and treatment algorithm, 203
- Early results of conversion of laparoscopic adjustable gastric band to Roux-en-Y gastric bypass, 439
- Effect of bariatric surgery on peripheral blood lymphocyte subsets in women, 165
- Effect of immunosuppression on patients undergoing bariatric surgery, 339
- Effect of laparoscopic gastric bypass surgery on urinary incontinence in morbidly obese women, 334
- Effect of laparoscopic Roux-en-Y gastric bypass surgery on hemoglobin A1c levels in diabetic patients: a matched-cohort analysis, 4
- Effect of sleeve gastrectomy on patients with diabetes mellitus, 429
- Elective laparoscopy for herald symptoms of mesenteric/internal hernia after laparoscopic Roux-en-Y gastric bypass, 144
- Elective laparoscopy for herald symptoms of mesenteric/internal hernia after laparoscopic Roux-en-Y gastric bypass, 520
- Endoluminal procedures for bariatric patients: expectations among bariatric surgeons, 231
- Evidence of executive dysfunction in extremely obese adolescents: a pilot study, 547
- Expanded Occupational Safety and Health Administration 300 log as metric for bariatric patient-handling staff injuries, 463

F

- Factors affecting rejection of bariatric patients from an academic weight loss program, 199
- Failure of adjustable gastric banding: starting BMI of 46 kg/m² is a fulcrum of success and failure, 310
- Feasibility and technique of laparoscopic conversion of adjustable gastric banding to sleeve gastrectomy, 72
- Five-year outcome with gastric bypass: Roux limb length makes a difference, 242
- Full and durable remission of type 2 diabetes? Through surgery?, 285

G

- Gastric banding with simultaneous panniculectomy: two case reports on technique, 507
- Gastric segmentation: nonadjustable banding by minilaparotomy: historical review, 365
- Gastrointestinal symptom improvement after Roux-en-Y gastric bypass: long-term analysis, 553

H

- High revision rates after laparoscopic vertical banded gastroplasty, 94

I

- Implantable gastric stimulation for the treatment of clinically severe obesity: results of the SHAPE trial, 31

- Improvement and stabilization of chronic kidney disease after gastric bypass, 237
- Initial experience with two-incision laparoscopic adjustable gastric banding, 666
- Initial results with sleeve gastrectomy for patients with class I obesity (BMI 30–35 kg/m²), 425
- Internal hernia after gastric bypass surgery during middle trimester pregnancy resulting in fetal loss: risk of internal hernia never ends, 378
- Internal hernia at Petersen's space after laparoscopic Roux-en-Y gastric bypass: 6.2 incidence without closure—a single surgeon series of 1047 cases, 565
- International multicenter study of safety and effectiveness of Swedish Adjustable Gastric Band in 1-, 3-, and 5-year follow-up cohorts, 598
- Intestinal electrical stimulation decreases postprandial blood glucose levels in rats, 692
- Is it time to abandon excess weight loss in reporting surgical weight loss?, 503

J

- Jejunal erosion in laparoscopic adjustable gastric band, 269

L

- Laparoscopic adjustable gastric band tubing: unusual cause of an internal hernia, 517
- Laparoscopic adjustable gastric banding with truncal vagotomy versus laparoscopic adjustable gastric banding alone: interim results of a prospective randomized trial, 435
- Laparoscopic biomesch hiatoplasty and sleeve gastrectomy in a morbidly obese patient with hiatal hernia, 707
- Laparoscopic conversion of adjustable gastric banding and vertical banded gastroplasty to duodenal switch, 678
- Laparoscopic conversion of distal mini-gastric bypass to proximal Roux-en-Y gastric bypass for malnutrition: case report and review of the literature, 383
- Laparoscopic fundoplication compared with laparoscopic gastric bypass in morbidly obese patients with gastroesophageal reflux disease, 139
- Laparoscopic management of chronic gastric pouch fistula after laparoscopic gastric bypass, 278
- Laparoscopic reduction of small bowel intussusception in a 33-week pregnant gastric bypass patient: surgical technique and review of literature, 111
- Laparoscopic repair of large flank hernia staged with laparoscopic sleeve gastrectomy in the morbidly obese, 513
- Laparoscopic Roux-en-Y gastric bypass after previous Nissen fundoplication, 280
- Laparoscopic transumbilical sleeve gastrectomy without visible abdominal scars, 275
- Laparoscopy for cramping peri-umbilical pains, 149

M

- Mandatory Clinical Trial Registration, 523
- Metabolic surgery: not just weight loss surgery anymore, 18
- Minimally invasive versus open Roux-en-Y gastric bypass: effect on immune effector cells, 181
- Moen Obituary, 406

N

-
- National trends in use and outcome of laparoscopic adjustable gastric banding, 150
- NOTES laparoscopic-assisted transvaginal sleeve gastrectomy in humans—description of preliminary experience in the United States, 633
- Novel gastric sleeve magnetic implant: safety and efficacy in rats, 684
- Number of weight loss attempts and maximum weight loss before Roux-en-Y laparoscopic gastric bypass surgery are not predictive of postoperative weight loss, 208

O

-
- Obesity in orthopedic patients, 670
- Obesity is associated with increased prevalence and severity of pelvic floor disorders in women considering bariatric surgery, 411
- Obesity surgery and malignancy: our experience after 1500 cases, 160
- One size does not fit all: CMS payment suspensions do not consider the unique risks and challenges of the morbidly obese, 519
- One-year weight loss after primary or revisional Roux-en-Y gastric bypass for failed adjustable gastric banding, 459

P

-
- Patterns of readmission and reoperation within 90 days after Roux-en-Y gastric bypass, 416
- Percentage of excess BMI lost correlates better with improvement of metabolic syndrome after Roux-en-Y gastric bypass in morbidly obese subjects: anthropometric indexes and gastric bypass, 11
- Perspectives on pediatric bariatric surgery: identifying barriers to referral, 88
- Physical function improvements after laparoscopic Roux-en-Y gastric bypass surgery, 530
- Pilot study evaluating technical feasibility and early outcomes of second-generation endosurgical platform for treatment of weight regain after gastric bypass surgery, 450
- Predictors for health-related quality of life in patients accepted for bariatric surgery, 329
- Preinductive use of clonidine and ketamine improves recovery and reduces postoperative pain after bariatric surgery, 67
- Prevalence and degree of sexual dysfunction in a sample of women seeking bariatric surgery, 698
- Primary midline peritoneal access with optical trocar is safe and effective in morbidly obese patients, 610

R

-
- Radiographic appearance of endoscopic duodenal-jejunal bypass liner for treatment of obesity and type 2 diabetes, 371
- Rare case of insulinoma diagnosed after laparoscopic gastric banding, 123
- Rationale for reversal of failed bariatric operations, 673
- Relation between degree of weight loss after bariatric surgery and reduction in albuminuria and C-reactive protein, 20
- Remission of type 2 diabetes after Roux-en-Y gastric bypass is associated with greater weight loss, 305

- Resectional gastric bypass outcomes in active duty soldiers: a retrospective review, 657
- Response of adiponectin and its receptors to changes in metabolic state after gastric bypass surgery: dissociation between adipose tissue expression and circulating levels, 172
- Results of gastrojejunal anastomotic technique designed to reduce stricture, 77
- Revisional operations for marginal ulcer after Roux-en-Y gastric bypass, 317
- A rodent model of metabolic surgery for study of type 2 diabetes and positron emission tomography scanning of beta cell mass, 212
- Roux limb obstruction secondary to constriction at transverse mesocolon rent after laparoscopic Roux-en-Y gastric bypass, 194
- Ruptured hepatocellular carcinoma in a patient with nonalcoholic steatohepatitis, 510

S

-
- Safety and effectiveness of REALIZE adjustable gastric band: 3-year prospective study in the United States, 588
- Safety and efficacy of simultaneous cholecystectomy at Roux-en-Y gastric bypass, 48
- SAGES guideline for clinical application of laparoscopic bariatric surgery, 387
- Selection of electrical algorithms to treat obesity with intermittent vagal block using an implantable medical device, 224
- Silastic ring vertical gastric bypass: cohort study with 83 rate of 5-year follow-up, 455
- Single-incision laparoscopic surgery: case report of SILS adjustable gastric banding, 362
- Six-minute walk test: functional capacity of severely obese before and after bariatric surgery, 540
- Size really does matter—role of gastrojejunostomy in postoperative weight loss, 357
- Slow-progression, autoimmune, type 1 diabetes in adults: a cause of failure of resolution of diabetes after bariatric surgery, 705
- Sphincter of Oddi dysfunction after Roux-en-Y gastric bypass, 571
- Splenic infarct as complication of sleeve gastrectomy, 626
- Status of venous thromboembolism prophylaxis among bariatric surgeons: have we changed our practice during the past decade?, 352
- Stent migration causing alimentary limb obstruction necessitating laparotomy and surgical stent extraction, 375
- Surgical implantation and adjustment technique with the Realize Band System, 104
- Synergistic weight loss and diabetes resolution with exenatide administration after laparoscopic gastric banding, 128
- Systematic review of sleeve gastrectomy as staging and primary bariatric procedure, 469
- Systemic thrombolysis for acute massive pulmonary embolism in the immediate postoperative period after bariatric surgery, 271

T

- Technique of resection of esophageal adenocarcinoma after Roux-en-Y gastric bypass and literature review of esophagogastric tumors after bariatric procedures, 576
- The continuing saga of obesity and malnutrition, 86
- The Second International Consensus Summit for Sleeve Gastrectomy, March 19–21, 2009, 476
- Transoral endoscopic closure of gastric fistula, 283
- Treatment of vitamin D depletion after Roux-en-Y gastric bypass: a randomized prospective clinical trial, 444
- Two-year changes in health-related quality of life in gastric bypass patients compared with severely obese controls, 250

U

- Unrestricted insurance access to bariatric surgery: no more excuses, 1
- Unusual complication: small bowel obstruction caused by tubing of gastric band, 637

- Updated Bariatric Analysis and Reporting Outcome System (BAROS), 60

V

- Validation of Obesity Surgery Mortality Risk Score in patients undergoing gastric bypass in a Canadian center, 643
- Video case report: multiple intraperitoneal transections of Lap-Band tubing with descending colon inflammation: cause or effect?, 710
- Vitamin D deficiency in preoperative bariatric surgery patients, 54

W

- What should be criteria for adoption of new procedures and devices in bariatric surgery?, 263
- When is the best time to deliver behavioral intervention to bariatric surgery patients: before or after surgery?, 99
